Sommario/riassunto

Estela Welldon brings together a generous selection derived from her many literary gems, in which she illustrates her groundbreaking-and sometimes explosive-studies of female sexuality and perversions, perverse transference, malignant bonding, perverse motherhood, and the impact upon children of viewing domestic violence. Along with these are vivid descriptions of group analytic psychotherapy with forensic patients and, uniquely, of the joint group treatment of incest survivors and perpetrators. She also outlines the development of forensic psychotherapy as a new field of clinical and academic
