## Sommario/riassunto

The Human Right to Water and Its Application in the Occupied Palestinian Territories provides an overview and examination of the human right to water as determined under international human rights law. This is a highly topical issue, with the UN General Assembly having passed a resolution which declares access to clean water and sanitation a human right (New York, Jul 28 2010), the recent appointment of the UN Independent Expert on the issue of human rights obligations related to access to safe drinking water and sanitation, and movement within the NGO community for an internationa
