Sommario/riassunto	This new text consists of parts of Bornstein and Lamb's Developmental Science, 6th edition along with new introductory material that as a whole provides a cutting edge and comprehensive overview of cognitive development. Each of the world-renowned contributors masterfully

introduces the history and systems, methodologies, and measurement and analytic techniques used to understand human cognitive development. The relevance of cognition is illustrated through engaging applications. Each chapter reflects the current state of the field in cognitive development and features an introduct
