Basser and M. Jones.

Sommario/riassunto

This book examines the changing relationship between disability and the law, addressing the intersection of human rights principles, human rights law, domestic law and the experience of people with disabilities. Drawn from the global experience of scholars and activists in a number of jurisdictions and legal systems, the core human rights principles of dignity, equality and inclusion and participation are analyzed within a framework of critical disability legal scholarship. This book breaks new ground in its consideration of the way in which human rights principles can be applied in law and policy to achieve positive outcomes for people with disabilities. With a foreword of Professor Ron McCallum AO, 2010 Chair United Nations Committee on the Rights of Persons with Disabilities .
