

1. Record Nr.	UNINA9910781498603321
Autore	Simanowski Roberto
Titolo	Digital art and meaning [[electronic resource]] : reading kinetic poetry, text machines, mapping art, and interactive installations / / Roberto Simanowski
Pubbl/distr/stampa	Minneapolis, : University of Minnesota Press, 2011
ISBN	1-4529-4678-7 0-8166-7676-3
Descrizione fisica	1 online resource (328 p.)
Collana	Electronic mediations ; ; v. 35
Disciplina	776
Soggetti	Digital art Interactive art
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction : close reading -- Digital literature -- Kinetic concrete poetry -- Text machines -- Interactive installations -- Mapping art -- Real-time Web sculpture -- Epilogue : code, interpretation, avant-garde.
Sommario/riassunto	In a world increasingly dominated by the digital, the critical response to digital art generally ranges from hype to counterhype. Popular writing about specific artworks seldom goes beyond promoting a given piece and explaining how it operates, while scholars and critics remain unsure about how to interpret and evaluate them. This is where Roberto Simanowski intervenes, demonstrating how such critical work can be done. "'Digital Art and Meaning'" offers close readings of varied examples from genres of digital art such as kinetic concrete poetry, computer-generated text, interactive installatio

Sommario/riassunto

Traces the emergence of a revolutionary conception of political authority on the far shores of the eighteenth-century Atlantic world. Based on the equal natural right of English subjects to leave the realm, claim indigenous territory and establish new governments by consent, this radical set of ideas culminated in revolution and republicanism. But unlike most scholarship on early American political theory, Craig Yirush does not focus solely on the revolutionary era of the late eighteenth century. Instead, he examines how the political ideas of settler elites in British North America emerged in the often-forgotten years between the Glorious Revolution in America and the American Revolution against Britain. By taking seriously an imperial world characterized by constitutional uncertainty, geo-political rivalry and the ongoing presence of powerful Native American peoples, Yirush provides a long-term explanation for the distinctive ideas of the American Revolution.
