Sommario/riassunto	This volume presents the results of part of the ESF project 'Second language acquisition by adult immigrants'. The present study deals specifically with structure of utterances in learner varieties. The authors have attempted to find general principles which determine the form of utterances from the very beginning to relatively advanced stages. Chapter 1 and 2 provide the framework for the study and here the guiding hypotheses are sketched on the basis of a pilot analysis. The empirical part of the study is contained in Chapters 3-6, in which data are given for the acquisition of, respectively
