UNINA9910781518103321 Veterans and Agent Orange [[electronic resource]]: update 2008 // **Titolo** Institute of Medicine of the National Academies Pubbl/distr/stampa Washington, District of Columbia, : National Academies Press, 2009 **ISBN** 0-309-14792-1 1-283-37611-3 9786613376114 0-309-13885-X Descrizione fisica 1 online resource (706 p.) 363 Disciplina Agent Orange - Health aspects Soggetti Agent Orange - Toxicology Vietnam War. 1961-1975 - Veterans - Health risk assessment - United States Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Note generali "Seventh biennial update." "Committee to Review the Health Effects in Vietnam Veterans of Exposure to Herbicides, Board on Population Health and Public Health Practice." Includes bibliographical references. Nota di bibliografia Nota di contenuto Introduction -- Evaluating the evidence -- Exposure to the herbicides used in Vietnam -- Information related to biologic plausibility --Epidemiologic studies--new citations and background on repeatedly studied populations -- Cancer -- Reproductive effects and impacts on future generations -- Neurologic disorders -- Other health effects --Conclusions and recommendations. Sommario/riassunto "From 1962 to 1971, the U.S. military sprayed herbicides over Vietnam to strip the thick jungle canopy that could conceal opposition forces, to destroy crops that those forces might depend on, and to clear tall grasses and bushes from the perimeters of U.S. base camps and outlying fire-support bases. In response to concerns and continuing uncertainty about the long-term health effects of the sprayed herbicides on Vietnam veterans, Veterans and Agent Orange provides a

comprehensive evaluation of scientific and medical information

regarding the health effects of exposure to Agent Orange and other herbicides used in Vietnam. The 2008 report is the eighth volume in this series of biennial updates. It will be of interest to policy makers and physicians in the federal government, veterans and their families, veterans' organizations, researchers, and health professionals."-- Publisher's description.
