Sommario/riassunto	Hepatology is an important specialty with diseases and complications related to viral hepatitis and alcohol being the main reason for seeking specialist advice. On most general medical rotations and on most surgical wards there are patients with hepatological problems. Hepatology: Clinical Cases Uncovered contains clinical presentations with real-life patient cases and outcomes as seen on the wards and in exams, and leads students through a practical approach to diagnosis and management of hepatological disease. Following a question and answer approach, including self-assessment mater
