| Sommario/riassunto      | Financing Africa takes stock of Africa's financial systems in light of recent changes in the global financial system -including the greater risk aversion of international investors, a shift in economic and financial powers towards emerging markets and the regulatory reform debate - and the increasing role of technology. Using a wider and more detailed array of data than previous publications, we observe a trend towards financial deepening, more stability and more inclusion leading up to the crisis; serious challenges, however, continue, including limited access to financial services, focus on |
