Sommario/riassunto	The global crisis of 2008-09 has brought to the forefront a plethora of economic and political policy issues. There is a re-opening of discussion on basic economic concepts, appropriate framework for analysis, role of private and public sectors in the economy, structural transformation of economies, human development and managing of growing risks and crises. The purpose of this book has been to bring home the inter-linkages in various parts of the economy and the need for practical policy making to reach development goals while being aware of the instabilities, complexities and downside risks
