

1. Record Nr.	UNINA9910461756603321
Titolo	Biogeography of microscopic organisms : is everything small everywhere? / / edited by Diego Fontaneto [[electronic resource]]
Pubbl/distr/stampa	Cambridge : , : Cambridge University Press, , 2011
ISBN	1-139-06344-8 1-107-21759-8 1-283-12727-X 9786613127273 1-139-07576-4 0-511-97487-6 1-139-08031-8 1-139-07802-X 1-139-07001-0 1-139-08259-0
Descrizione fisica	1 online resource (x, 365 pages) : digital, PDF file(s)
Collana	Systematics Association special volume series
Disciplina	579/17
Soggetti	Microorganisms - Geographical distribution
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Why biogeography of microorganisms? / Diego Fontaneto and Juliet Brodie -- Historical biogeography, microbial endemism and the role of classification: everything is endemic / David M. Williams -- Biogeography of prokaryotes / Donnabella C. Lacap, Maggie C.Y. Lau and Stephen B. Pointing -- Thermophilic bacteria in cool soils: metabolic activity and mechanisms of dispersal / Roger Marchant, Ibrahim M. Banat and Andrea Franzetti -- Dispersal of protists: the role of cysts and human introductions / Wilhelm Foissner -- Everything is everywhere: a twenty-first century de-/reconstruction with respect to protists / David Bass and Jens Boenigk -- Arcellinida testate amoebae (Amoebozoa: Arcellinida): model of organisms for assessing microbial biogeography / Thierry J. Heger, Enrique Lara and Edward A.D. Mitchell -- Everything is not everywhere: the distribution of cactophilic yeast /

Philip F. Ganter -- Coalescent analyses reveal contrasting patterns of intercontinental gene flow in arctic-alpine and boreal-temperate fungi / Jozsef Geml -- Biogeography and phylogeography of lichen fungi and their photobionts / Silke Werth -- Biogeography of mosses and allies: does size matter? / Nagore G. Medina, Isabel Draper and Francisco Lara -- Dispersal limitations of habitat quality: what shapes the distribution ranges of ferns? / Hanno Schaefer -- Ubiquity of microscopic animals? Evidence from the morphological approach in species identification / Tom Artois [and others] -- Molecular approach to micrometazoans. Are they here, there and everywhere? / Noemi Guil -- Microbes as a test of biogeographic principles / David G. Jenkins, Kim A. Medley and Rima B. Franklin -- A metacommunity perspective on the phylo- and biogeography of small organisms / Luc de Meester -- Geographic variation in the diversity of microbial communities: research directions and prospects for experimental biogeography / Joaquin Hortal.

---

#### Sommario/riassunto

Bringing together the viewpoints of leading experts in taxonomy, ecology and biogeography of different taxa, this book synthesises discussion surrounding the so-called 'everything is everywhere' hypothesis. It addresses the processes that generate spatial patterns of diversity and biogeography in organisms that can potentially be cosmopolitan. The contributors discuss questions such as: are microorganisms (e.g. prokaryotes, protists, algae, yeast and microscopic fungi, plants and animals) really cosmopolitan in their distribution? What are the biological properties that allow such potential distribution? Are there processes that would limit their distribution? Are microorganisms intrinsically different from macroscopic ones? What can microorganisms tell us about the generalities of biogeography? Can they be used for experimental biogeography? Written for graduate students and academic researchers, the book promotes a more complete understanding of the spatial patterns and the general processes in biogeography.

Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references ([p. 221-244]) and indexes.
Nota di contenuto	FOR TO SPEKE FRENCHE TREWELY; Editorial page; Title page; Copyright page; Table of contents; PREFACE AND ACKNOWLEDGEMENTS; CHAPTER 1 INTRODUCTION; CHAPTER 2 PERIOD I: IMMEDIATELY BEFORE AND AFTER THE CONQUEST(1000-1152); CHAPTER 3 PERIOD II: FROM THE MARRIAGE OF HENRY II (1152) TO THE PROVISIONS OF OXFORD (OCTOBER 17,1258); CHAPTER 4 PERIOD III: FROM THE PROVISIONS OF OXFORD (1258) TO THE PARLIAMENTARY STATUTE THAT ALL GOVERNMENTAL AND LEGAL AFFAIRS BE CONDUCTED IN ENGLISH (1362); CHAPTER 5 PERIOD IV FROM THE STATUTE OF 1362 TO THE AGE OF PRINTING

CHAPTER 6 THE AGE OF PRINTING, HUMANISM AND REFORMATION  
CHAPTER 7 CONCLUSIONS; APPENDIX I: BIOGRAPHICAL SKETCHES OF  
THE GRAMMARIANS; APPENDIX II: SELECTED INTRODUCTIONS AND  
DEDICATIONS; BIBLIOGRAPHY; INDEX

Sommario/riassunto

The first grammatical descriptions of the French language were produced in England, several centuries before the first grammar written in French (but also several centuries after the Norman Conquest). This book describes the status of French in England during the period from the marriage of Emma of Normandy to thele (1004) to the fixing of a (relatively) standard pedagogical scheme for the teaching of French of English speakers (ca. 1600). During this period French passed from a native language to a second language, became the official language of the legal profession, and ultimately fell back to a position of social accomplishment. At the same time, different pedagogical and descriptive traditions developed to meet these various needs. Here Kibbee traces the interaction of cultural, intellectual, social and technological history with the elaboration of a grammatical tradition. The book includes a bibliography and indexes of names, titles and subjects.
