| Sommario/riassunto      | HauptbeschreibungFacts and figures indicate a continuously increasing societal welfare. But what about its impacts on the environment? The growing wealth has been accompanied by environmental degradation, deforestation, losses in bio-diversity, global warming, air pollution, depletion of the ozone layer, and overfishing. Recent measurements have been performed related to the depletion of natural resources showing that humans currently use the resources of 1.25 Earths. At the current consumption levels of high-income countries, the world could only sustainably support 1.75 billion pe |
