Sommario/riassunto	'There is a sea change afoot in contemporary psychoanalysis and this brilliant volume is a manifesto of it. When brain science and clinical psychoanalysis are put on exactly equal conceptual footing fascinating possibilities emerge with an intoxicating clarity. Fred Levin's remarkable volume makes evident how psychoanalysis is thinking its way into the future. Psychoanalysis has collected a virtual Tower of Babel of facts. Levin artfully rearranges this vast material, offering a glimpse into a theoretical integration only dreamed of a few years ago.'- Arnold Wilson, Ph.D., Professor of Psychol
