

1. Record Nr.	UNINA9910781751303321
Autore	McCauley Robert N
Titolo	Why religion is natural and science is not [[electronic resource] /] / Robert N. McCauley
Pubbl/distr/stampa	New York, : Oxford University Press, c2011
ISBN	0-19-991230-0 1-283-29702-7 9786613297020 0-19-982727-3
Descrizione fisica	1 online resource (352 p.)
Disciplina	201/.65
Soggetti	Religion and science Psychology, Religious Cognition and culture
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Natural cognition -- Maturational naturalness -- Unnatural science -- Natural religion -- Surprising consequences.
Sommario/riassunto	The battle between religion and science, competing methods of knowing ourselves and our world, has been raging for many centuries. Now scientists themselves are looking at cognitive foundations of religion--and arriving at some surprising conclusions. Over the course of the past two decades, scholars have employed insights gleaned from cognitive science, evolutionary biology, and related disciplines to illuminate the study of religion. In <i>Why Religion is Natural and Science Is Not</i> , Robert N. McCauley, one of the founding fathers of the cognitive science of religion, argues that our minds are b
