Sommario/riassunto	The International Institute for Labour Studies, a research arm of the International Labour Organization (ILO), is to launch its fourth report in the series "Studies on Growth with Equity" in Madrid on Monday, 27 June, 2011. The new study "Spain: Quality Jobs for a New Economy" takes an in-depth look at the Spanish labour market and economy and offers a set of policy recommendations on how the Spanish economy can best recover from the recent crisis. It also includes a series of comprehensive statistics and trends related to the labour market in Spain.
