research -- Archival methods in race relations research -- Ethnic modeling in qualitative research -- Racial and ethnic conflict studies : methodological dilemmas -- Psychoanalytic ethnography and the transformation of racially wounded communities -- The possible restorative justice functions of qualitative research.

Sommario/riassunto

John H. Stanfield II, the leading contemporary Black sociologist of knowledge, distills decades of his research and thinking in a set of articles-some original to the volume, others from fugitive sources-that address race in the formation of epistemologies, theories, and methodologies in social science. Stanfield's contributions to the discipline, such as the adoption of restorative justice as an anti-racism solution in multiracial societies and the development of African diasporic sociological reasoning, are highlighted here. Ranging widely across theoretical, methodological, and substantive
