Sommario/riassunto	Pavol Stekauer presents an original approach to the intricate problems of English word-formation. The emphasis is on the process of coining new naming units (words). This is described by an onomasiological model, which takes as its point of departure the naming needs of a speech community, and proceeds through conceptual reflection of extra-linguistic reality and semantic analysis to the form of a new naming unit. As a result, it is the form which implements options given by semantics by means of the so-called Form-to-Meaning Assignment Principle. Word-formation is conceived of as an ind
