| Nota di contenuto       | Mindreading in animals : its importance and history -- The logical problem in animal mindreading research -- Solving the logical problem for perceptual state attribution -- Solving the logical problem for belief attribution.                                                                                  |
| Sommario/riassunto      | Lurz presents a new approach to understanding what mindreading in animals might be, offering a bottom-up model of mental state attribution that is built upon cognitive abilities that animals are known to possess rather than on a preconceived view of the mind applicable to mindreading abilities in humans. |

| Nota di contenuto       | Chapter 1. Codes, Standards, Legislation, & Paris Agreement 1 Chapter 2. Energy Economic Analysis 33 Chapter 3. Energy Auditing and Accounting 51 Chapter 4. Electrical System Optimization 77 Chapter 5. Waste Heat Recovery 135 Chapter 6. Utility System Optimization 187 Chapter 7. Heating, Ventilation, Air Conditioning and Building System Optimization 241 Chapter 8. HVAC Equipment 281 Chapter 9. Cogeneration: Theory and Practice 291 Chapter 10. Control Systems and Computer Programs 321 Chapter 11. Thermal Storage 365 Chapter 12. Compressed Air System Optimization 377 Chapter 13. Occupants'                                                                |

**Sommario/riassunto**

With new chapters on electrical system optimization and ISO 50001, this edition also covers the latest updates to codes and standards in the energy industry. Also included are chapters on energy economic analysis, energy auditing, waste heat recovery, utility system optimization, HVAC, cogeneration, control systems, energy management, compressed air system optimization and financing energy projects.
