Sommario/riassunto	There have been few book-length engagements with the question of sexuality in Africa, let alone African homosexuality. African Intimacies simultaneously responds to the public debate on the OAfricannessO of homosexuality and interrogates the meaningfulness of the terms OsexualityO and OhomosexualityO outside Euro-American discourse. Speculating on cultural practices interpreted by missionaries as sodomy and resistance to colonialism, Neville Hoad begins by analyzing the 1886 Bugandan martyrs incidentNthe execution of thirty men in the royal court. Then, in a series of close readings, he addres

[Sommario/riassunto](#)

The debt crisis of 1982 caused serious economic disruptions in most developing countries. Reform, Recovery, and Growth explains why some of these countries have recovered from the debt crisis, while more than a decade later others continue to stagnate. Among the questions addressed are: What are the requirements for a stabilization policy that reduces inflation in a reasonable amount of time at an acceptable cost? What are the effects of structural reforms, especially trade liberalization, deregulation, and privatization, on growth in the short and long runs? How do macroeconomic instability and adjustment policies affect income distribution and poverty? How does the specific design of structural adjustment efforts affect results? In this companion to *Macroeconomics of Populism in Latin America*, the authors confirm that macroeconomic stability has a positive effect on income distribution. The volume presents case studies that describe in detail the stabilization experiences in Brazil, Israel, Argentina, and Bolivia, and also includes discussion of Chile, Mexico, Peru, and Turkey.
