Sommario/riassunto	This volume owes its genesis to a series of lectures on various aspects of the historical phonology of Asian languages, sponsored by the Asian Linguistics Colloquium of the Department of Asian Languages and

Literature of the University of Washington, in Seattle. The volume includes papers on both theoretical and applied aspects of Asian linguistics, and topics examined include vowel harmony, dialect variation and "inherent variability", historical reconstruction based on written records, historical reconstruction based on the comparative method, accentology, and language standardization.
