Sommario/riassunto

Faut-il compter les livres que l'on prête ou bien faut-il interroger les lecteurs sur ce qu'ils ont retenu de leur lecture ? Comment évaluer la performance de sa bibliothèque et comment mesurer son impact sur le public qu'elle dessert ? Cerner l'impact de son établissement, dessiner la cartographie de sa zone de chalandise, mesurer les effets induits par l'offre de services présents ou virtuels sur ses différents publics, calculer la satisfaction et tester, à toutes les étapes d'un projet, l'expérience de l'utilisateur sont parmi les sujets abordés dans cet ouvrage.

Cecil Roth: A Personal Appraisal -- Guide to Further Reading -- Index

Sommario/riassunto

Professor Geoffrey Alderman is the acknowledged authority on the history of the Jews in modern Britain. During an academic career spanning forty years he has produced some of the most authoritative and controversial studies in this field, lighting up the dark corners of the Jewish existence in Great Britain and revealing secrets the Anglo-Jewish communities would rather have kept from public view. In *Controversy and Crisis*, Alderman presents sixteen of these essays, covering fields as disparate as the history of the Jewish vote in the UK, the true story of the British Chief Rabbinate, and the uneasy tenure of Sir Jonathan Sacks in that office. He also considers the role of the historian in Anglo-Jewish life, and the troubled careers of some of its leaders and scholars.
