

1. Record Nr.	UNINA9910781858403321
Titolo	Large-scale ecosystem restoration [[electronic resource]] : five case studies from the United States // edited by Mary Doyle and Cynthia A. Drew
Pubbl/distr/stampa	Washington [D.C.], : Island Press, c2008
ISBN	1-61091-089-3
Descrizione fisica	1 online resource (340 p.)
Collana	The science and practice of ecological restoration
Altri autori (Persone)	DoyleMary, LL. B. DrewCynthia A
Disciplina	639.9
Soggetti	Restoration ecology - United States Ecosystem management - United States Watershed restoration - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Society for Ecological Restoration International."
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	; The challenges of restoring the Everglades ecosystem / Terrence "Rock" Salt, Stuart Langton, Mary Doyle -- Everglades ecology : the impacts of altered hydrology / Thomas L. Crisman -- Rivers of plans for the river of grass : the political economy of Everglades restoration / Stephen Polasky -- Negotiating for endangered and threatened species habitat in the Platte River Basin / David M. Freeman -- Platte River Basin ecology : a three-dimensional approach to adaptive management / Thomas L. Crisman -- Navigating the shoals : costs and benefits of Platte River ecosystem management / Stephen Polasky -- ; The California-Bay Delta : the challenges of collaboration / David Nawi, Alf W. Brandt -- ; The ecology of Bay-Delta restoration : an impossible dream? / Thomas L. Crisman -- Water fights : the economics of allocating scarce water and Bay-Delta restoration / Stephen Polasky -- ; The culture of collaboration in the Chesapeake Bay program / Mary Doyle, Fernando Miralles-Wilhelm -- ; An ecological perspective on management of the Chesapeake Bay / Thomas L. Crisman -- Murky waters and murky policies : costs and benefits of restoring Chesapeake Bay / Stephen Polasky -- ; The Upper Mississippi River and the Army Corps of Engineers' new role : will Congress fund ecosystem restoration? / Cynthia A. Drew -- Upper Mississippi restoration ecology

: putting theory into practice / Thomas L. Crisman -- Comparing apples and oranges? : costs and benefits of Upper Mississippi River system restoration / Stephen Polasky -- ; Conclusion: Assessing ecosystem restoration projects / Mary Doyle.

Sommario/riassunto

Large-Scale Ecosystem Restoration examines some of the most difficult and important issues involved in restoring and protecting natural systems, and makes a unique and valuable contribution to the field of ecological restoration. It is a landmark publication for scientists, policymakers, and anyone working to protect or restore landscapes or watersheds.
