 Chapter 4. Processes and Production Methods

Sommario/riassunto

International trade rules have significant impacts on environmental law and policy, at the domestic, regional and global levels. At the World Trade Organization (WTO), dispute settlement tribunals are increasingly called to decide on environment- and health-related questions. Can governments treat products differently based on environmental considerations? Can they block the import of highly carcinogenic asbestos-containing products or genetically modified crops? Does the WTO allow governments to protect dolphins or endangered sea turtles through the use of import restrictions on certain produ
