

1. Record Nr.	UNINA9910781928503321
Titolo	The psychophysiology of sex [[electronic resource] /] / edited by Erick Janssen
Pubbl/distr/stampa	Bloomington, : Indiana University Press, c2007
ISBN	1-282-07848-8 9786612078484 0-253-11704-6
Descrizione fisica	1 online resource (553 p.)
Collana	The Kinsey Institute series ; ; v. [8]
Altri autori (Persone)	JanssenErick
Disciplina	616.6/9001
Soggetti	Sexual disorders Sex (Psychology) Sex (Biology)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"This book is the outcome of a conference, the first of its kind, on the psychophysiology of sex. The conference was held in Bloomington, Indiana, in July 2003."--Introd.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Contents; Acknowledgments; Introduction; PART 1: Physiology and Neurobiology of Sexual Response; Brain Functional Imaging Studies of Sexual Desire and Arousal in Human Males; The Human Sexual Response-Similarities and Differences in the Anatomy and Function of the Male and Female Genitalia: Are They a Trivial Pursuit or a Treasure Trove?; Discussion Paper; General Discussion; Autonomic Nervous System Influences: The Role of the Sympathetic Nervous System in Female Sexual Arousal; Neuroendocrine Processes during Sexual Arousal and Orgasm Female Sexual Arousal Response Using Serial Magnetic Resonance Imaging with Initial Comparisons to Vaginal Photoplethysmography: Overview and Evaluation Discussion Paper; General Discussion; PART 2: Theoretical Perspectives and Models; Cognitive-Affective Processes in Sexual Arousal and Sexual Dysfunction; The Sexual Unconscious; Discussion Paper; General Discussion; The Dual Control Model: The Role of Sexual Inhibition and Excitation in Sexual Arousal and Behavior; Discussion Paper; Interactive Processes in Ejaculatory Disorders: Psychophysiological Considerations;

Discussion Paper

General Discussion
PART 3: Learning Processes, Subjective Experience, and Genital Response; The Role of Classical Conditioning in Sexual Arousal; Discussion Paper; How Do Men and Women Feel? Determinants of Subjective Experience of Sexual Arousal; The Voluntary Control of Genital Response, Arousal, and Orgasm; Discussion Paper; General Discussion; PART 4: Sexual Motivation and Arousal; Desire Emerges from Excitement: A Psychophysiological Perspective on Sexual Motivation; Models of Sexual Motivation; Discussion Paper; General Discussion; PART 5: Sexual Function and Dysfunction
Sexual Dysfunction, Sexual Psychophysiology, and Psychopharmacology: Laboratory Studies in Men and Women
Disabilities, Psychophysiology, and Sexual Functioning; Discussion Paper; General Discussion; PART 6: Gender, Sexual Orientation, and Paraphilic Sexual Interests; Cognitive Processes and Gender Differences in Sexuality; Discussion Paper; The Sexual Psychophysiology of Sexual Orientation; Psychophysiological Assessment of Paraphilic Sexual Interests; Discussion Paper; General Discussion; Appendix; Contributors; Index

Sommario/riassunto

Although sexual psychophysiology has made great strides over the past few decades, the progress made has not been accompanied by much effort to integrate research findings or to stimulate methodological and theoretical discussions among researchers. Yet this new research area has the potential to make substantial contributions to understanding a wide range of phenomena, including the spread of HIV/STIs, sexual "addiction" or compulsivity, the use (or nonuse) of birth-control methods, sexual infidelit
