

1. Record Nr.	UNINA9910781953203321
Titolo	Polymer research and applications [[electronic resource] /] / Andrew J. Fusco and Henry W. Lewis, editors
Pubbl/distr/stampa	New York, : Nova Science Publishers, c2011
ISBN	1-62100-121-0
Descrizione fisica	1 online resource (226 p.)
Collana	Polymer science and technology
Altri autori (Persone)	FuscoAndrew J LewisHenry W
Disciplina	620.1/92
Soggetti	Polymers
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Extrusion heads used in manufacturing polymeric casings for preventing pipes from corrosion -- Effects of polypropylene fibers on expansion properties of cement based composite containing waste glass -- Biodegradation of film polymer coating on the basis of chitosan -- Granulating of reduced to fragments secondary polymers by means of extrusion head -- Incidence of the aggressive atmospheric agents from the cuban climate on polymeric articles and materials -- Peroxide cross-linking polyethylene PEX-A : migration of antioxidants -- Physical-chemical properties of natural polymers : potential carriers and delivery systems of biologically active substances for human applications -- Organometallic polyamines as physical materials and biomaterials -- DEAE-Dextran and DEAE-Dextran-MMA graft copolymer for nanomedicine -- Bio and polymers : new polymer technologies with water.
