#### Sommario/riassunto

The Forests Source Book provides practical operations-oriented guidance for forest sector engagement toward the goals of poverty reduction, conservation and economic development. Intended to guide World Bank lending activities and projects, the Forests Source Book offers information useful to a broad audience of practitioners, government agencies, and non-governmental organizations. The Source Book was developed in partnership with members of the Collaborative Partnership on Forests, including the Food and Agriculture Organization. The Source Book provides background on key issues, lessons learned, and best practices in forest sector development.
