Sommario/riassunto	This annual edition presents the most recent statistics since 1990 of over 80 health indicators for WHO's 193 Member States. This fourth edition includes an expanded set of over 76 key indicators and a section with 10 highlights in global health statistics in the past year. This book has been collated from publications and databases of WHO's technical programmes and regional offices. The core set of indicators was selected on the basis of relevance for global health, availability and quality of data, and accuracy and comparability of estimates. The statistics for the indicators are based on an
