Notes on lexical strategy, structural strategies and surface clause indexes in the C-ORAL-ROM spoken corpora; Appendix: Evaluation of consensus on the annotation of terminal and non-terminal prosodic breaks in the C-ORAL-ROM Corpus; Bibliography; The series Studies in Corpus Linguistics
Sommario/riassunto	The C-ORAL-ROM book and DVD provide a unique set of comparable corpora of spontaneous speech for the main Romance languages, French, Italian, Portuguese and Spanish. The corpora are accompanied by comparative linguistic studies, models and standard linguistic measures of spoken language variability. Each corpus is built to the same design using identical sampling techniques, and each corpus is presented in multimedia format, allowing simultaneous access to aligned acoustic and textual information.
