

1. Record Nr.	UNINA9910782327303321
Autore	Gibb Timothy J
Titolo	Arthropod collection and identification [[electronic resource]] : field and laboratory techniques // Timothy J. Gibb, Christian Y. Oseto
Pubbl/distr/stampa	Amsterdam ; ; Boston, : Academic Press, c2006
ISBN	1-281-79537-2 9786611795375 0-08-091925-1
Descrizione fisica	1 online resource (325 p.)
Altri autori (Persone)	OsetoC. Y
Disciplina	595 595.7075 595.7075 22
Soggetti	Arthropoda - Collection and preservation Arthropoda
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front Cover; Arthropod Collection and Identification Field and Laboratory Techniques; Copyright Page; Contents; Preface; Part 1: Basic Tools and General Techniques; Introduction; Chapter 1. Equipment and Collecting Methods; 1.1 Equipment; 1.2 Collecting Nets; 1.3 Killing Containers and Agents; 1.4 Aspirators and Suction Devices; 1.5 Other Collection Devices; 1.6 Traps; 1.7 Baits, Lures, and Other Attractants; 1.8 Pheromones and Other Attractants; 1.9 Collecting Aquatic Insects; 1.10 Collecting Soil Insects; 1.11 Collecting Ectoparasites; 1.12 Collecting Regulated Insects 1.13 Collecting Insects for Pest Management Audits 1.14 Collecting Insects for Medico-Criminal Investigations; 1.15 Rearing; 1.16 Collecting Insects for Molecular Research; Chapter 2. Agents for Killing and Preserving; Chapter 3. Storage of Specimens; 3.1 Temporary Storage; 3.2 Mounting Specimens; 3.3 Labeling; 3.4 Care of the Collection; 3.5. Packaging and Shipping Specimens; Part 2: Classification of Insects and mites; Introduction; Chapter 4. Classification of Insects and Mites; 4.1 Key to Classes of Arthropoda; 4.2 Class Arachnida; 4.3 Subclass Acari

4.4 Classes Diplopoda, Chilopoda, Paupropoda, and Symphyla
4.5 Class Crustacea; 4.6 Class Hexopoda (Insecta); Chapter 5. Synopsis of Insect Orders; 5.1 Subclass Class Entognatha: Primitive Wingless Hexapods; 5.2. Subclass Ectognatha: Primitive Wingless Hexapods; 5.3 Subclass Pterygota (Insecta): Winged and Secondarily Wingless Insects; 5.4 Key to Orders of Hexapoda (Insects); Chapter 6. Descriptions of Hexapod Orders; 6.1 Protura; 6.2 Diplura; 6.3 Collembola; 6.4 Microcoryphia; 6.5 Thysanura; 6.6 Ephemeroptera; 6.7 Odonata; 6.8 Orthoptera; 6.9 Blattodea; 6.10 Mantodea; 6.11 Phasmatodea
6.12 Gryllblattodea
6.13 Dermaptera; 6.14 Isoptera; 6.15 Embiidina;
6.16 Plecoptera; 6.17 Psocoptera; 6.18 Zoraptera; 6.19 Mallophaga;
6.20 Anoplura; 6.21 Thysanoptera; 6.22 Hemiptera; 6.23 Homoptera;
6.24 Coleoptera; 6.25 Strepsiptera; 6.26 Mecoptera; 6.27 Neuroptera;
6.28 Tricoptera; 6.29 Lepidoptera; 6.30 Diptera; 6.31 Siphonaptera;
6.32 Hymenoptera; Summary; GLOSSARY; REFERENCES; APPENDIX; I Liquid Preservation Formulas; II Guidelines for Mounting Small and Soft-Bodied Specimens (SEL); III Directory- State Extension Service Directors and Administrators
IV Submitting Specimens for Identification (SEL)
INDEX

Sommario/riassunto

Arthropods are the most numerous and diverse group of animals and studying them requires the use of specialized equipment and specific procedures. This text describes effective methods and equipment for collecting, identifying, rearing, examining, and preserving insects and mites, and explains how to store and care for specimens in collections. It also provides instructions for the construction of many kinds of collecting equipment, traps, rearing cages, and storage units, as well as updated and illustrated keys for identification of the classes of arthropods and the orders of insects. Such

2. Record Nr.	UNINA9910254050703321
Autore	Nicastro Jessica
Titolo	Bacteriophage Applications - Historical Perspective and Future Potential // by Jessica Nicastro, Shirley Wong, Zahra Khazaei, Peggy Lam, Jonathan Blay, Roderick A. Slavcev
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (VII, 82 p.)
Collana	SpringerBriefs in Biochemistry and Molecular Biology, , 2211-9353
Disciplina	576.6482
Soggetti	Biochemical engineering Combinatorial chemistry Gene expression Biochemical Engineering Combinatorial Libraries Gene Expression
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	1. Introduction: What are Bacteriophage: a. Discovery and early phage work (including work with bacterial genetics, phage display, and phage therapy) -- b. Bacteriophage pathogenesis and host range -- c. Bacteriophage growth dynamics -- d. Bacteriophage pharmacokinetics(including mammalian host tolerance) -- 2. Applications with Bacteriophage: a. Phage Therapy -- i. Past – why phage therapy was unsuccessful in the past and what can (and is currently) being done to improve the system -- ii. Present /Future – current research objectives and future considerations -- Host range and how it can be expanded -- Lethal agent delivery systems (bacteriocidal) -- Lethality without lysis -- b. Phage Vaccines and Phage Immunostimulation -- i. Mammalian immune response to phage -- ii. Phage vaccine delivery vehicles -- iii. Phage Immunotherapy -- c. Phage as Delivery Vehicles: i. Phage for gene delivery -- Phage display for specific cell targeting -- Considerations for use and benefits in comparison to current systems -- ii. Phage as Drug Carriers -- Selectivity and cell attachment --

Phage T2 as a potential cancer therapeutic -- Phage for delivery to the brain and CNS (including current work with Alzheimer's and drug addictions) -- d. Phage for Bacterial Detection: i. History of Phage bacterial detection -- ii. Methods (replication assays, conjugation with bioluminescence, labelling etc.) -- iii. Potential uses in healthcare and industry -- e. Phage for the targeting of Biofilms -- i. Phage candidates and important bacterial targets -- ii. History and potential uses in healthcare and industry -- f. Phage device coatings: i. Current phage coating practices and research -- ii. Challenges (notably phage orientation) -- iii. methods to overcome these challenges.

Sommario/riassunto

This book explores key applications of phage biotechnology and reviews recent advances in phage display technologies. The applications covered were selected on the basis of their significance and representativeness in the field. The small size and enormous diversity of bacteriophages make them ideal candidates for numerous applications across many industries. Since the discovery of phages and the advent of phage display systems, considerable attention has been focused on the development of novel therapeutic and industrial applications. Recent studies combine the genomic flexibility of phages with phage display systems in order to generate modified phages for targeted delivery.
