Sommario/riassunto

South Korea-oriented articles in the 2007 yearbook deal with online grassroots journalism and participatory democracy, the Lone Star scandal, changing perceptions of inward direct investment, the impact of China's economic ascendance, modern cityscape and mass housing production, new ancestral shrines, and the political economy of patriotism. Additional articles highlight lessons of negotiations with North Korea, the plight of North Koreans in China, and Korea-China border issues. The yearbook is essential reading for anyone interested in modern Korea.
