Sommario/riassunto	A thorough study of quotation within ancient and modern literatures is the background for this new approach to alleged quotations within the prophetic writings. The common claim that specific verbal parallels result from the conscious repetition of the words of a predecessor is

beset by difficulties. After examining quotation in non-prophetic (ancient Near Eastern, early Jewish, Old Testament wisdom and narrative, and modern Western) literatures, Schultz proposes a new model for interpreting verbal parallels that utilizes several criteria for identifying quotation and combines diachronic with
