

1. Record Nr.	UNINA9910782406203321
Autore	Good Irving John
Titolo	Good thinking [[electronic resource] ] : the foundations of probability and its applications / / I.J. Good
Pubbl/distr/stampa	Minneapolis, : University of Minnesota Press, c1983
ISBN	0-8166-6265-7
Descrizione fisica	1 online resource (352 p.)
Disciplina	519.2
Soggetti	Probabilities
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographies and indexes.
Nota di contenuto	Contents; Acknowledgments; Introduction; Part I. Bayesian Rationality; Part II. Probability; Part III. Corroboration, Hypothesis Testing, Induction, and Simplicity; Part IV. Information and Surprise; Part V. Causality and Explanation; References; Bibliography; Subject Index of the Bibliography; Name Index; Subject Index
Sommario/riassunto	Good Thinking is a representative sampling of I. J. Good's writing on a wide range of questions about the foundations of statistical inference, especially where induction intersects with philosophy. Good believes that clear reasoning about many important practical and philosophical questions is impossible except in terms of probability. This book collects from various published sources 23 of Good's articles with an emphasis on more philosophical than mathematical. He covers such topics as rational decisions, randomness, operational research, measurement of knowledge, mathematical discovery, ar
