

1. Record Nr.	UNINA9910782406703321
Autore	Darzins Egons
Titolo	The bacteriology of tuberculosis // Egons Darzins
Pubbl/distr/stampa	Minneapolis, : University of Minnesota Press, [1958]
ISBN	0-8166-6851-5 0-8166-6203-7
Descrizione fisica	1 online resource (501 pages)
Disciplina	616.246
Soggetti	Tuberculosis - Microbiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	pt. 1. Morphology and cytology of the tubercle bacillus -- pt. 2. Sources of energy and growth of the tubercle bacillus -- pt. 3. The isolation and identification of the tubercle bacillus -- pt. 4. The types and pathogenicity of the tubercle bacillus -- pt. 5. Experimenting with the tubercle bacillus.
Sommario/riassunto	The Bacteriology of Tuberculosis was first published in 1958. Although tuberculosis is one disease against which, it may be said with little argument, medical science has scored tremendous victories, the goal of complete conquest still lies ahead. To fix accurate sights for that goal, a thorough understanding of the present status of knowledge about the disease is needed. This volume is published in response to that need. Through an exhaustive study of the literature on tuberculosis bacteriology from the late nineteenth century to the present, Dr. Darzins presents a comprehensive account of th
