Sommario/riassunto	The Art of Child Placement was first published in 1955. The social worker -- experienced or neophyte -- who is engaged in the complicated job of placing children in foster homes or institutions will find helpful guidance in this book. Although she writes primarily of the problems of foster placement, the author offers a philosophy and principles that will be useful also in child adoption work. Mrs. Charnley discusses child placement in relation to the physiological and psychological growth patterns of children.
