| Sommario/riassunto      | Praise for Algorithmic Trading ""Algorithmic Trading is an insightful book on quantitative trading written by a seasoned practitioner. What sets this book apart from many others in the space is the emphasis on real examples as opposed to just theory. Concepts are not only described, they are brought to life with actual trading strategies, which give the reader insight into how and why each strategy was developed, how it was implemented, and even how it was coded. This book is a valuable resource for anyone looking to create their own systematic trading strategies and those involved in manage |

| Nota di contenuto       | Archetypal landscape: healing the land and the nation in the Zionist imagination -- Pathological landscape: epidemiology and medical geography of malaria in Palestine -- Potential landscape: swamp drainage projects and the politics of settlement -- Technological landscape: the Jezreel Valley and the Huleh Valley projects -- Perceptual landscape: scientific experimentation, colonial medicine, and the medicalization of Palestine -- Cultural landscape: creating a culture of health through antimalaria education and propaganda -- Contested landscape: Palestinian Arabs and Zionist antimalaria projects -- Ecological landscape: old paradigms, new meanings. |
| Sommario/riassunto      | A novel inquiry into the sociopolitical dimensions of public medicine, Healing the Land and the Nation traces the relationships between disease, hygiene, politics, geography, and nationalism in British Mandatory Palestine between the world wars. Taking up the case of malaria control in Jewish-held lands, Sandra Sufian illustrates how efforts to thwart the disease were intimately tied to the project of Zionist nation-building, especially the movement's efforts to repurpose and improve its lands. The project of eradicating malaria also took on a  |

metaphorical dimension-erasing anti-Semitic stereotypes of the "parasitic" Diaspora Jew and creating strong, healthy Jews in Palestine. Sufian shows that, in reclaiming the land and the health of its people in Palestine, Zionists expressed key ideological and political elements of their nation-building project. Taking its title from a Jewish public health mantra, *Healing the Land and the Nation* situates antimalarial medicine and politics within larger colonial histories. By analyzing the science alongside the politics of Jewish settlement, Sufian addresses contested questions of social organization and the effects of land reclamation upon the indigenous Palestinian population in a decidedly innovative way. The book will be of great interest to scholars of the Middle East, Jewish studies, and environmental history, as well as to those studying colonialism, nationalism, and public health and medicine.
