| Sommario/riassunto | Nationally recognized scholars address the unique problems encountered by minority elders in achieving the goal of maximum well-being as we enter the 21st century. Topics include physical health, continuum of care, mental health, social policy, economic security and research planning and development. Minority populations surveyed include the elderly African American, Asian American, American Indian, Mexican American and women. Contributors include: D. Lee, M. Haug, R. Binstock, G. Cohen, K. Markides, T. Tripp-Reimer, E. Kahana and many more. |
