Nota di bibliografia Includes bibliographical references (p. [268]-309) and index. Nota di contenuto Front Cover; Preface; Contents; Chapter 1. Introduction to Better Land Husbandry: Chapter 2. Social and Economic Components of Better Land Husbandry; Chapter 3. Agro-ecological Components of Better Land Husbandry: Chapter 4. Better Land Husbandry: A New Paradigm: Chapter 5. Better Land Husbandry in Practice; Chapter 6. Better Land Husbandry and Policy; APPENDIX 1. Impact Monitoring and Assessment; REFERENCES; Index; Back Cover Sommario/riassunto This book is a timely contribution towards the debate on the most effective way to bring about sustainable farming in marginal areas. It offers a detailed analysis of the social, economic, and agro-ecological characteristic of both Soil and Water Conservation (SWC) and Better Land Husbandry (BLH) and an analysis of case studies of BLH from

Central and South America, Africa, and Asia.
