Sentences, clauses, statements and propositionsSome interactions between tense and negation in English; The English accusative-and-infinitive construction: A categorial analysis; On the boundaries of syntax: Non-syntagmatic relations; Gerund participles and head-complement inflection conditions; Isolated if-clauses in Australian English; Functional and structural: The practicalities of clause knowledge in language education; Subject Index; STUDIES IN LANGUAGE COMPANION SERIES (SLCS)
Sommario/riassunto	The focus in this volume is on grammatical aspects of the clause in English, presenting a fine balance between theoretically- and descriptively-oriented approaches. Some authors investigate the status and properties of 'minor' or 'fringe' constructions, including 'deictic-presentationals'; non-restrictive relative clauses with that; 'isolated if-

clauses', and 'exceptional clauses'. In some articles the validity of conventional accounts and approaches is questioned: such as traditional constituency trees and labelled bracketings as a means of representing relationships between par
