

1. Record Nr.	UNINA990004268170403321
Autore	Sappho <7.-6. saec. a. C.>
Titolo	Saffo e Alceo : testimonianze e frammenti / [a cura di] Carlo Gallavotti
Pubbl/distr/stampa	Napoli : Libr. Scientifica Editrice, 1962-
Edizione	[3. ed. riv. e ampl.]
Descrizione fisica	v. ; 24 cm
Collana	Collana di studi greci ; 10
Altri autori (Persone)	Alcaeus
Disciplina	884.01
Locazione	FLFBC
Collocazione	P2B-610-SAPPHO-401A(1)-1962
Lingua di pubblicazione	Italiano Greco antico
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNISA996385344403316
Titolo	An ordinance and declaration of the Lords and Commons assembled in Parliament [[electronic resource]] : that the lord major and citizens of the city of London, for the better securing and safety thereof, shall have full power and authority according to their discretion to trench, stop, and fortifie all high-waies leading into the said city, as well within the liberties as without, as they shall see cause : and for the better effecting thereof shall impose upon all the inhabitants within the same upon every house worth 51 a yeere six pence, and every house of greater rent after the rate of two pence in the pound : also an ordinance of both houses for an assessment to be made in the severall paishes of England for the reliefe of maymed soulders, widdows, and fatherlesse children
Pubbl/distr/stampa	London, : Printed for I. Wright in the Old Bailey, March 8, 1642 [i.e. 1643]
Descrizione fisica	[2], 6 p
Soggetti	Pensions - England Taxation - England
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Reproduction of original in Thomason Collection, British Library.
Sommario/riassunto	eebo-0158

3. Record Nr.	UNISA996465400003316
Titolo	Rough Sets, Fuzzy Sets, Data Mining, and Granular Computing [[electronic resource]] : 10th International Conference, RSFDGrC 2005, Regina, Canada, August 31 - September 2, 2005, Proceedings, Part II / / edited by Dominik Slezak, JingTao Yao, James F. Peters, Wojciech Ziarko, Xiaohua Hu
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2005
Edizione	[1st ed. 2005.]
Descrizione fisica	1 online resource (XXIV, 748 p.)
Collana	Lecture Notes in Artificial Intelligence ; ; 3642
Disciplina	006.3
Soggetti	Artificial intelligence Information storage and retrieval Database management Mathematical logic Computers Pattern recognition Artificial Intelligence Information Storage and Retrieval Database Management Mathematical Logic and Formal Languages Computation by Abstract Devices Pattern Recognition
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Invited Papers -- Rough Set Software -- Data Mining -- Hybrid and Hierarchical Methods -- Information Retrieval -- Image Recognition and Processing -- Multimedia Applications -- Medical Applications -- Bioinformatic Applications -- Web Content Analysis -- Business Applications -- Security Applications -- Industrial Applications -- Embedded Systems and Networking -- Intelligent and Sapient Systems.
Sommario/riassunto	This volume contains the papers selected for presentation at the 10th

International Conference on Rough Sets, Fuzzy Sets, Data Mining, and Granular Computing, RSFDGrC 2005, organized at the University of Regina, August 31st–September 3rd, 2005. This conference followed in the footsteps of international events devoted to the subject of rough sets, held so far in Canada, China, Japan, Poland, Sweden, and the USA. RSFDGrC achieved the status of biennial international conference, starting from 2003 in Chongqing, China. The theory of rough sets, proposed by Zdzisław Pawlak in 1982, is a model of approximate reasoning. The main idea is based on indiscernibility relations that describe indistinguishability of objects. Concepts are represented by approximations. In applications, rough set methodology focuses on approximate representation of knowledge derivable from data. It leads to significant results in many areas such as finance, industry, multimedia, and medicine. The RSFDGrC conferences put an emphasis on connections between rough sets and fuzzy sets, granular computing, and knowledge discovery and data mining, both at the level of theoretical foundations and real-life applications. In the case of this event, additional effort was made to establish a linkage towards a broader range of applications. We achieved it by including in the conference program the workshops on bioinformatics, security engineering, and embedded systems, as well as tutorials and sessions related to other application areas.

Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 137-168) and index.
Nota di contenuto	Frontmatter -- CONTENTS -- List of Illustrations -- Acknowledgments -- Introduction: Uncertainty and Change -- 1. Wildland Fire in the West: The Big Picture -- 2. Fanning the Flames: Human Influences on Fire Regimes -- 3. The Failed State of Fire Suppression -- 4. Logging the Forests to Save Them -- 5. Tools for Living with Fire -- 6. Policy Solutions -- Notes -- Index
Sommario/riassunto	Fire, both inevitable and ubiquitous, plays a crucial role in North American ecosystems. But as necessary as fire is to maintaining healthy ecosystems, it threatens human lives and livelihoods in unacceptable ways. This volume explores the rich yet largely uncharted terrain at the intersection of fire policy, fire science, and fire management in order to find better ways of addressing this pressing dilemma. Written in clear language, it will help scientists, policy makers, and the general public, especially residents of fire-prone areas, better understand where we are today in regard to coping with wildfires, how we got here, and where we need to go. Drawing on abundant historical and analytic information to shed new light on current controversies, Living with Fire offers a dynamic new paradigm for coping with fire that recognizes its critical environmental role. The book also tells how we can rebuild the

important ecological and political processes that are necessary for finding better ways to cope with fire and with other complex policy dilemmas.
