Table 4.1 Crop Failure by Irrigation Source; Figure 4.5 Seasonal Employment Effects; Figure 4.6 Distribution of Irrigation Benefits Skewed toward the Better Off; Figure 4.7 Poverty Impact of Irrigation; Figure 4.8 Income Distribution Improved between 2005 and 2006; Table 4.2 Estimates of the Economic Rate of Return; Table 4.3 Alternative Estimates of the Economic Rate of Return; Box 4.1 Improving the Quality of Sensitivity Analysis in Bank Appraisals
Figure 4.9 Investments in SRBC Had No Chance of Providing an Acceptable Rate of Return
5 Summary and Lessons Learned; Appendixes; Endnotes; Bibliography

Sommario/riassunto

The Independent Evaluation Group (IEG) of the World Bank has undertaken impact evaluations of the Bank's support to irrigation in Andhra Pradesh, India (under AP Irrigation II and III), and of the U.K. Department for International Development supported Rural Livelihoods Project (RLP). This is one of a series of IEG impact evaluations (see appendix H). IEG's program of impact evaluation is in part carried out under a Department for International Development-IEG partnership agreement; hence the focus on RLP. However, survey villages are also covered by the Bank supported DPIIP project, so that the
