Sommario/riassunto

The present volume is entirely dedicated to the investigation of the implications and effects of breaking ritual rules, of failed performances and of the extinction of ritual systems. While rituals are often seen as infallible mechanisms which 'work' irrespective of the individual motivations of the performers, it is clearly visible here that rituals can fail, and that improper performances do in fact matter. These essays break new ground in their respective fields and the comparative analysis of rituals that go wrong introduces new perspectives to ritual studies. As the first book-length study on ritual mistakes and failure, this volume begins to fill a significant gap in the existing literature. Contributors include: Claus Ambos, Christiane Brosius, Johanna Buss, Burckhard Dücker, Christoph Emmrich, Brigitta Hauser-Schäublin, Maren Hoffmeister, Ute Hüsken, Brigitte Merz, Axel Michaels, Karin Polit, Michael Rudolph, Edward L. Schieffelin, Jan A.M. Snoek, Eftychia Stavrianopoulou, and Jan Weinhold.

Sommario/riassunto	In this new and fully revised edition Pinar Bilgin provides an accessible yet critical analysis of regional security in the Middle East. Using a non-realist approach, the author offers a comprehensive study of pasts, presents and futures of security in the region. The book distinguishes itself from previous (critical) studies on regional security by opening up both 'region' and 'security'. Different from those approaches that bracket one or the other, this study takes seriously the constitutive relationship between (inventing) regions, and (conceptions and practices of) security. There is not one Middle East but many, shaped by the insecurities of those who voice them. This book focuses on how present-day insecurities have their roots in practices that have, throughout history, been shaped by 'geopolitical inventions of security'. In doing so, the book lays the contours of a framework for thinking

critically about regional security in this part of the world.
