

1. Record Nr.	UNINA9910782589703321
Autore	Morris R. G. M (Richard G. M.)
Titolo	Elements of a neurobiological theory of the hippocampus [[electronic resource]] : the role of activity-dependent synaptic plasticity in memory // R.G.M. Morris
Pubbl/distr/stampa	Amsterdam, : Amsterdam University Press, 2005
ISBN	1-281-98350-0 9786611983505 1-4416-1034-0 90-485-0968-8
Descrizione fisica	1 online resource (41 p.)
Disciplina	612.820113
Soggetti	Hippocampus (Brain) Neural networks (Neurobiology) Memory
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 34-41).
Nota di contenuto	Contents; Summary; 1. The Hippocampal Formation and Memory; 2. Elements of a Neurobiological Theory of the Hippocampus and the Role of NMDA Receptor-Dependent Synaptic Plasticity; 3. Experimental observations; 4. Conclusion; 5. References
