Sommario/riassunto	About the Book: Smoking is injurious to health. It has been estimated

that about 1.3 billion are addicted to smoking and unless steps are taken to make people aware of the growing menace, 650 million people are likely to die prematurely due to the extensive use of tobacco. The book, *Tobacco Use: Health and Behaviour*, in twelve chapters, deals with a wide range of issues concerning its cultivation and its impact on the health of its users. It provides a critical test for our concepts of reality; discusses how it has assumed political, economic and medical importance since its introduction;
