Sommario/riassunto	Widely recognized experts present the first comparative analysis of recent developments among six Eastern and Western nations

concerning population aging and its consequences. Chapters focus on demographic trends, sociocultural contexts, and policy implications. Nations selected as case studies include: the People's Republic of China, the Republic of Korea, Japan, Germany, the United Kingdom, and the United States. The editors and contributors call attention to the varied trajectories and effects of population aging in culturally diverse societies that are often at different stages or on diffe
