Issues to Consider in Studies of Midlife and Older Sexual Minorities; Index; A; B; C; D; E; F; G; H; I; L; M; N; O; P; Q; R; S; T; U; W; Y
Sommario/riassunto	The year 2003 marks the 30th anniversary of the landmark ""declassification"" of homosexuality as a disease by the American

Psychiatric Association--a watershed in the lives of gays and lesbians in the United States. For the first time in history, a generation of self-identified lesbians, gay men, bisexuals, and transgender individuals are approaching retirement. This volume brings to the forefront important issues concerning the health, mental health, and concomitant special social service needs of this population and emphasizes the need for more research on aging sexual minorities. Based on
