Nota di contenuto	Understanding our educational environment: heart speaks to heart -- Overview of the curriculum: what's in a mission statement? -- Living a life with chronic illness -- Professional nursing: long term health issues; didactic content as lived experiences -- Collaborative practice in long term care: practice, practice, practice -- Full circle: students as teachers.
Sommario/riassunto	This text provides innovative strategies for teaching whole person care of chronic illness in both classroom and clinical settings. Taking a narrative approach, the authors show how medical-surgical and psychiatric-mental health nursing can be creatively integrated to promote student understanding of the complexity of working with clients and families experiencing long-term health challenges. The text is filled with "how to" information along with discussion of pedagogical concerns related to chronic illness management. Valuable features include: case examples, an extensive listing of films
