

1. Record Nr.	UNINA9910782757703321
Autore	Tischler Mark B (Mark Brian), <1957->
Titolo	Aircraft and rotorcraft system identification [[electronic resource]] : engineering methods with flight-test examples / / Mark B. Tischler, Robert K. Remple
Pubbl/distr/stampa	Reston, Va., : American Institute of Aeronautics and Astronautics, c2006
ISBN	1-60086-135-0 1-60086-007-9
Descrizione fisica	1 online resource (562 p.)
Collana	AIAA education series
Altri autori (Persone)	RempleRobert K
Disciplina	629.132
Soggetti	Helicopters - Aerodynamics - Computer simulation Propeller-driven aircraft - Computer simulation Helicopters - Flight testing Rotors - Dynamics - Computer simulation Helicopter flight simulators Systems engineering - Mathematics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 499-513) and index.
Nota di contenuto	Cover ; Title; Copyright ; Table of Contents; List of Figures; List of Tables; Nomenclature; Acronyms; Preface; Chapter 1. Introduction and Brief History of System Identification in the Frequency Domain; Chapter 2. Frequency-Response Method for System Identification; Chapter 3. Description of Example Cases; Chapter 4. Overview of CIFER Software; Chapter 5. Collection of Time-History Data; Chapter 6. Data Consistency and Reconstruction; Chapter 7. Single-Input / Single-Output Frequency-Response Identification Theory Chapter 8. Bare-Airframe Identification from Data with Feedback Regulation ActiveChapter 9. Multi-Input Identification Techniques; Chapter 10. Composite Windowing; Chapter 11. Transfer-Function Modeling; Chapter 12. State-Space Model Identification-Basic Concepts; Chapter 13. State-Space Model Identification:Physical Model Structures; Chapter 14. Time-Domain Verification of Identification Models; Chapter 15. Higher-Order Modeling of Coupled Rotor/Fuselage
