Sommario/riassunto	Timely and authoritative, this volume reviews the breadth of current knowledge on the self-conscious emotions and their role in psychological and social functioning. Leading investigators approach the subject from multiple levels of analysis, ranging from basic brain mechanisms to complex social processes. Chapters present compelling advances in research on the most fundamental self-conscious emotions: embarrassment, guilt, humiliation, pride, and shame. Addressed are neural and evolutionary mechanisms, developmental processes, cultural differences and similaritie
