Sommario/riassunto	This accessible book presents approaches to planning, carrying out, and analyzing research projects with children and youth from a social constructivist perspective. Rich, contextualized examples illustrate how to elicit and understand the lived experiences of diverse young people. Data-collection methods discussed in depth include drawing, photography, the Internet, games, interviewing, focus groups, journaling, and observation. Also covered are strategies for fostering the active contributions of children in the research process; navigating consent and ethical
