Sommario/riassunto	When the people of British North America threw off their colonial bonds, they sought more than freedom from bad government: most of the founding generation also desired the freedom to create and enjoy good, popular, responsive government. This book traces the central issue on which early Americans pinned their hopes for positive government action--internal improvement. The nation's early republican governments undertook a wide range of internal improvement projects meant to assure Americans' security, prosperity, and enlightenment--from the building of roads, canals, and bridges to the
